

ESLAM SAEED

Full Stack Developer | React.js & Node.js

+20 102 623 7058 • islamsaeed597@gmail.com • Cairo, Egypt • linkedin.com/in/eslam-saeed-b70955317 • github

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of hands-on experience designing and deploying production-grade web applications serving 10,000+ active users across multiple platforms. Specialized in building scalable e-commerce systems, academic management platforms, and real-time marketplace applications using React.js, Node.js, Express.js, and MySQL. Proven ability to architect end-to-end solutions — from database design and REST API development to VPS deployment and application optimization. Additionally experienced as a Programming & AI Instructor, having trained 550+ students in web development fundamentals.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Redux, Typescript
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, Socket.io, bcrypt
- **Database & Cloud:** MySQL, MongoDB, Firebase, Cloudinary
- **Tools & Deployment:** Git, GitHub, Postman, VPS Deployment, Hostinger, Render, Vercel
- **Specializations:** RBAC, Payment Integration, Real-Time Systems, OTP Verification, AI Integration, Responsive Design

PROFESSIONAL EXPERIENCE

Note: The three roles below are run concurrently as part-time / flexible-schedule engagements (freelance development alongside part-time instructing), not overlapping full-time positions.

Freelance Full Stack Developer

Jun 2024 – Present

ICT Academy · Part-time / Freelance

- Architected and deployed 4 production-grade full-stack applications serving a combined 7,000+ active users, using React.js, Node.js, Express.js, and MySQL.
- Designed RESTful APIs with JWT-based authentication, role-based access control (RBAC), and real-time communication via Socket.io across multiple platforms.
- Integrated third-party services including payment gateways, OTP verification, live chat systems, and AI-powered assistants to enhance platform functionality.
- Optimized database queries and backend workflows, improving API response performance and reducing server load on high-traffic production systems.
- Managed full VPS deployment lifecycle including server configuration, database hosting, SSL setup, and ongoing application maintenance.

Programming & AI Instructor

Jan 2025 – Present

Creative Interactive School (American Department) · Part-time

- Deliver practical, project-based programming and AI training sessions for school students, covering web development, JavaScript, React.js, and AI fundamentals.
- Simplified complex technical concepts, increasing student engagement and comprehension through hands-on coding exercises and real-world examples.

Programming Instructor

Jun 2022 – Present

ICT Academy · Part-time

- Trained 550+ students in web development and programming fundamentals through online and onsite sessions.
- Taught HTML, CSS, JavaScript, React.js, Python, OOP, and problem-solving techniques across multiple cohorts.

KEY PROJECTS

ATC Academy | React.js · Node.js · Express.js · MySQL · Socket.io · VPS · JWT · Tailwind CSS

- Built and deployed a multi-tenant academic management platform currently serving 5,000+ active users across multiple academy branches.
- Developed role-based dashboards for 5 user types (owners, admins, teachers, accountants, students) with fully isolated branch data architecture.
- Implemented modules for course management, scheduling, financial tracking, attendance workflows, and real-time notifications.
- Managed production VPS deployment, database operations, and ongoing maintenance for a live business system.

Sheshinstor | *React.js · Node.js · Express.js · MySQL · JWT · Cloudinary · Socket.io · VPS*

- Developed and deployed a production e-commerce platform for fashion and beauty products, currently serving 2,000+ customers, employees, and administrators.
- Implemented secure role-based access, real-time inventory management, file upload workflows, and JWT/bcrypt authentication.
- Managed full VPS deployment pipeline including production database hosting and performance optimization for a live retail platform.

Rently | *React.js · Node.js · Express.js · MySQL · Socket.io · AI · VPS · JWT · Tailwind CSS*

- Built a feature-rich rental marketplace with Google OAuth, OTP verification, identity verification, and an AI-powered customer assistant.
- Developed scalable REST APIs, admin dashboards, complaint management systems, and real-time chat using Socket.io.
- Optimized database performance by adding indexes on high-frequency query columns and implementing server-side pagination, reducing average API response time by ~40%.

De7ket-baby | *React.js · Node.js · Express.js · MongoDB · Cloudinary · Tailwind CSS*

- Developed a full-stack e-commerce platform with admin dashboard for managing products, orders, and customer interactions.
- Implemented payment integration, live chat, cloud-based image uploads via Cloudinary, and responsive UI with Tailwind CSS.

EDUCATION & CERTIFICATIONS

B.Sc. Artificial Intelligence — Egyptian Russian University, 2024

HCIA-AI Certification — Huawei

Python Programming — HackerRank
